EXECUTIVE SUMMARY

Backend developer with hands-on Python (FastAPI, Django) and C#/.NET experience, including 6 months building REST APIs for a production Financial Accounting System used across 4 countries. Independently designed, built, and deployed 3 backend systems (29+ REST endpoints, JWT auth, PostgreSQL). M.Sc. Computer Science graduate (CGPA 9.35/20) seeking backend developer roles in Chennai.

TECHNICAL SKILLS

Programming Languages: Python, C#, SQL

Backend Frameworks: Django, FastAPI, Django REST Framework, .NET Framework

Databases: PostgreSQL, SQL Server

Core Concepts: REST API Design, JWT Authentications, Role-Based Access Control, System Design Fundamentals

Tools & Platform: Git, GitHub, Postman, Azure Repos, AWS(Cloud Foundations), Vercel, Render, Neon

PROFESSIONAL EXPERIENCE

Software Engineer Trainee - .NET Backend Developer | *Ambattur Fashion Group p (Ltd)* | Nov 2025 – May 2026

- Build 30-40 REST API endpoints across 9 to 18 modules of a Financial Accounting System migration project supporting operations across 4 countries
- Shipped ~150 pull requests(~3/day) through a production Azure Repos workflow with code review and a shared codebase
- Worked with SQL Server for data modelling and query support across multi-country accounting modules

Intern- Development Team, Essentials of Modern AI | *NCS Soft Solutions (P) Ltd* | May 2025-Jun 2025

- Built OCR pipelines(image-to-text, PDF-to-text) using Hugging-Face pre-trained models on real document and image datasets
- Contributes to migrating an existing system from React + .NET to JSP + Spring MVC per client requirement

PROJECTS

CareBridge—AI-Assisted Healthcare Platform | [Live](#) | *Python, Django REST Framework (DRF), PostgreSQL, JWT, Google Gemini*

- Building a full-stack healthcare platform connecting patient, doctors, and pharmacies through role-based dashboards
- Integrated Google Gemini to power an AI Symptom Checker that recommends the right specialist from user input
- Built RESTful APIs with JWT authentications using Django REST Framework(DRF); designed an end-to-end prescription flow linking doctor prescriptions directly to pharmacy inventory
- Deployed live — frontend on Vercel, backend on Render

Campus Placement Intelligence System (CPIS) | [Live](#) | *Python, FastAPI, PostgreSQL, JWT*

- Designed and built 29 REST API endpoints with JWT authentication across 3 user roles(Student, Admin, Company)
- Implements a rule-base weighted eligibility engine to automate placement screening ; deployed live—frontend on Vercel and backend on Render

StockValut- Full Stack Product Management App | [Live](#) | *Python, FastAPI, PostgreSQL, CRUD Operations*

- Built a full CRUD management application with FastAPI backend framework and PostgreSQL database
- Deployed live on Vercel with an end-to-end decoupled frontend/backend architecture
- Independently designed and implemented all 4 REST endpoints (Create, Read, Update, Delete), handling API design, PostgreSQL schema, and React state management end to end

EDUCATION

M.Sc. Computer Science – *Loyola College, Chennai | Jul 2024 – Apr 2026*

CGAP: 9.35/10

B.Sc. Computer Science – *Bhaktavatsalam Memorial College for Women , Chennai | Jul 2021- Apr 2024*

CGPA: 8.4/10

CERTIFICATIONS

AWS Academy Graduate – Cloud Foundations Oct 2025

Learn Python for Data Science- Infosys Springboard Nov 2025
